Precision Oncology: Focus on RET-Driven NSCLC

Wednesday 13 October 2021 13:00–13:30 (CEST)

13:00	Welcome and Introduction	Chair - Solange Peters, Switzerland
13:02	Testing algorithms in NSCLC	Ed Schuurin, Netherlands
13:10	Take action with RET inhibitors: A patient with RET fusion-positive NSCLC	Maximilian Hochmair, Austria
13:28	Symposium close	Chair - Solange Peters, Switzerland

Symposium Objectives

- Educate on the latest evidence regarding diagnostic options to identify RET fusion-positive NSCLC
- Exchange clinical experience in the management of RET-driven NSCLC

This symposium will be broadcast at the above time through the ILCS 2021 virtual congress platform and will subsequently be available for viewing “on-demand”

Please note that registration to the ILCS 2021 virtual congress is required for access
